“LATIN GROOVES MOVE THE WORLD.”

CHAZIN, 2026

As he continues to take his distinctive blend of Tech House, Latin groove and percussive energy to dance floors around the world, Spanish-born, Venezuelan-descent DJ and producer Chazin has established himself as one of the emerging names shaping the new wave of Latin-inspired electronic music.

From Europe to Asia and the Americas, Chazin has brought his high-energy sound to renowned venues and festivals including Bora Bora Ibiza, Maya Music Festival, Summer Daze Festival and Nikki Beach Marbella just to name a few. His international journey took a major step forward after relocating to Asia, where he became a resident at Illuzion Phuket, a DJ Mag Top 100 club, performing more than 300 shows and cementing his position within the electronic music scene.

Behind the decks, Chazin’s sets combine the drive and precision of Tech House with Latin-rooted rhythms, percussion and infectious grooves, creating a sound designed to connect with dance floors from intimate clubs to major festival stages.

His growing presence as a producer has seen his music reach audiences across the international electronic music circuit, with releases on respected labels and a catalogue that continues to expand. His productions have accumulated more than 200,000 streams, further establishing his identity as an artist with a clear and distinctive musical direction.

Beyond his own productions, Chazin is also the founder of Magna Beat Records, an independent label focused on Tech House and Latin Groove. Through the label, he is developing a platform for a new generation of artists and helping push Latin-inspired club music further into the global electronic scene.

With an ever-growing catalogue, an international touring background and a sound built around rhythm, energy and Latin identity, Chazin continues to expand his reach across the world’s dance floors, with his sights firmly set on becoming a defining name in the next generation of Latin House and Tech House.
